Thailand to participate in the EuroAsia SHORTS film festival for the very first time!

The sixth annual festival featuring pairings of short films from Asian and European countries and the United States, screens from **June 6 - 10, 2011** throughout Washington, D.C. The 29 films from 9 cultures, including many award-winning selections debuting in the United States, shine a light on cultural similarities and differences.

The theme of EuroAsia Shorts 2011 is men, women, and the challenges of relating to one another. In both familial and romantic relationships, as well as society in general, it is not always easy to connect, communicate, and truly live in happiness and harmony across the sexes. This year's selection of films from Thailand explores that universal struggle and the underlying thought processes of men and women. **June 9th** evening's screening will serve as a springboard for a lively discussion with Director Chin Tangsakulsathaporn following the films.
